

Code the future of Energy

ENERGY
DATA
HACKDAYS 

SAVE THE DATE

10-11 September

 FHNW Brugg-Windisch

Join Switzerland's premier innovation event where energy data meets action!

The Mission

We need developers, researchers, and energy experts to transform elusive datasets into practical, scalable prototypes. Whether you're here to experiment or launch a solution, your skills will address the most pressing grid challenges of today while delivering tangible results.

Why Join Us?

Exclusive Data: Access meaningful energy and climate datasets.

Expert Mentorship: Hands-on support from industry leaders and academic experts.

High-Impact Networking: Connect with Switzerland's top engineers and specialists.

Career Opportunities: Connect directly with partners on the hunt for top talent - this is your chance to find your next employer.

Rapid Prototyping: Move from raw data to a working model in just 36 hours.

Industry Shapers: Meet the Innovation Leaders, engage with them and showcase your commitment to shaping the future.
